

Website Planning Document

Site Name:

Timpanogos Weather

Name: Capis Prestes

Site Purpose:

The purpose of Timpanogos Weather Website is to inform the weather conditions for people who live in Utah County. I chose the site's name because of Mount Timpanogos (located in Utah County). There could be a small variation in the temperature throughout the cities that compose this County. That is why I will develop this site.

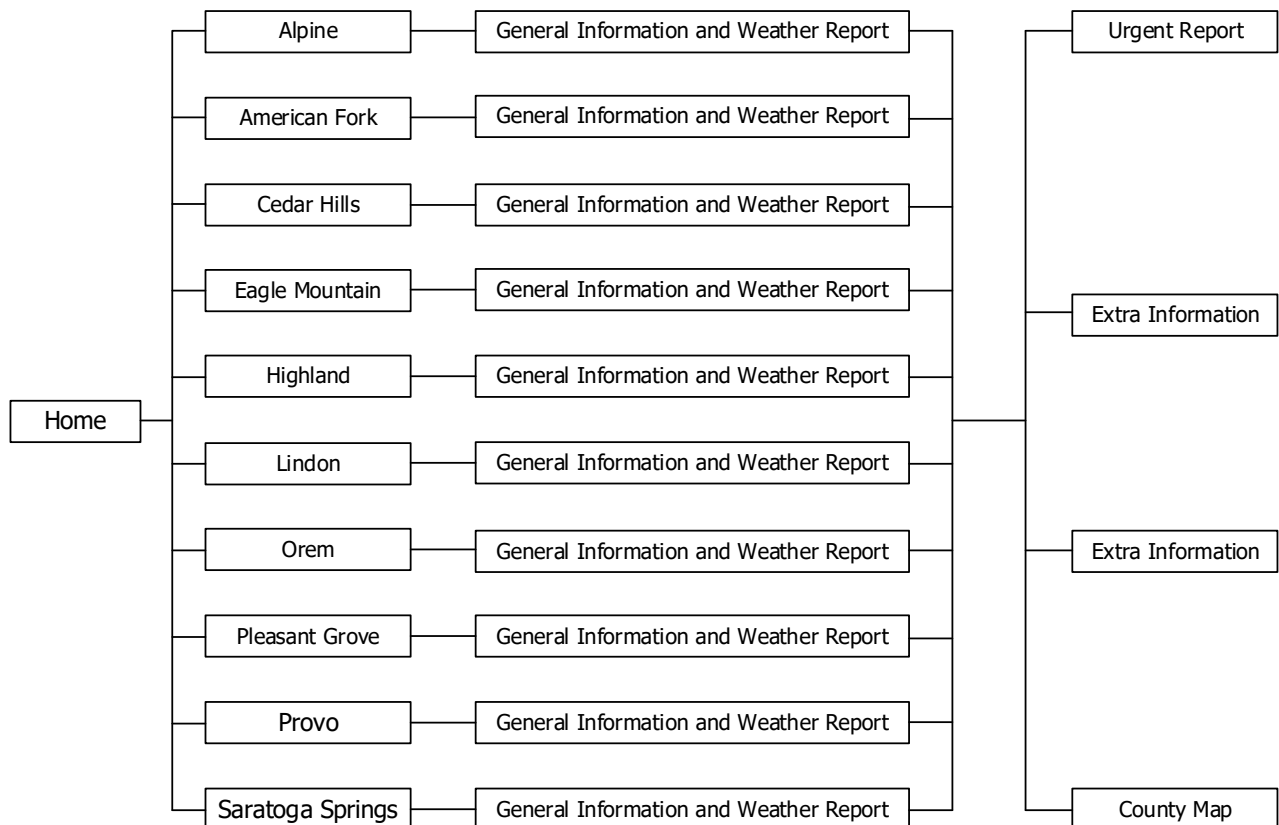

Target Audience:

This website is for people who need to analyze weather conditions before doing different sort of day-by-day activities. Kids and Teenagers can access the website to choose between an indoor or outdoor activity after school. Fathers will check the weather conditions to determine the kind of transportation they will use to go to work. Mothers who send kids to school need to know the kind of clothes kids can wear the following day.

Site Map:

This website will contain information about the 10 biggest cities from the county. They are:

Alpine, American Fork, Cedar Hills, Eagle Mountain, Highland, Lindon, Orem, Pleasant Grove, Provo, and Saratoga Springs.

Color Scheme:

#000000	#FFFFFF
---------	---------
